

Mangomindsm for Legal Professionals

Faster, more efficient document sharing and collaboration with external colleagues and clients.

◆ **Communicate critical information faster.**

Simply copy documents to the Mind drive and invited users can instantly access the information.

◆ **Collaborate with colleagues more efficiently.**

Edit documents and distribute to colleagues without the worry of losing track of document versions.

◆ **Reduce the cost of client communication.**

Reduce overnight mail, faxing, and courier charges.

◆ **Be more productive while away from the office.**

Work on documents offline and automatically synchronize the information when you connect back to the Internet.

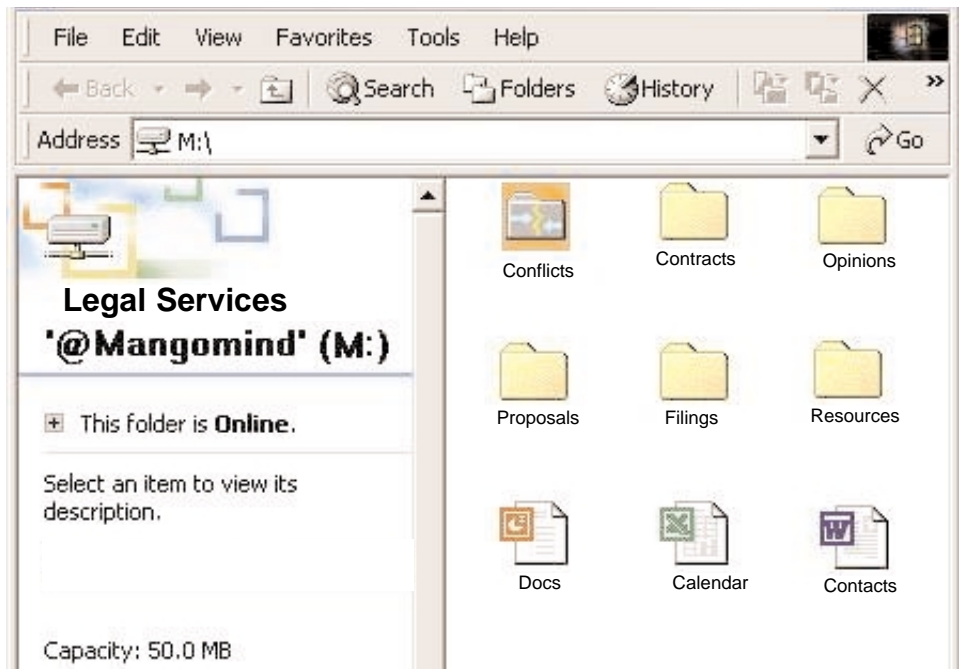

◆ **Eliminate the costs and complexities of virtual private networks.**

Mangomind provides the benefits and security of a VPN without the overhead and support requirements.

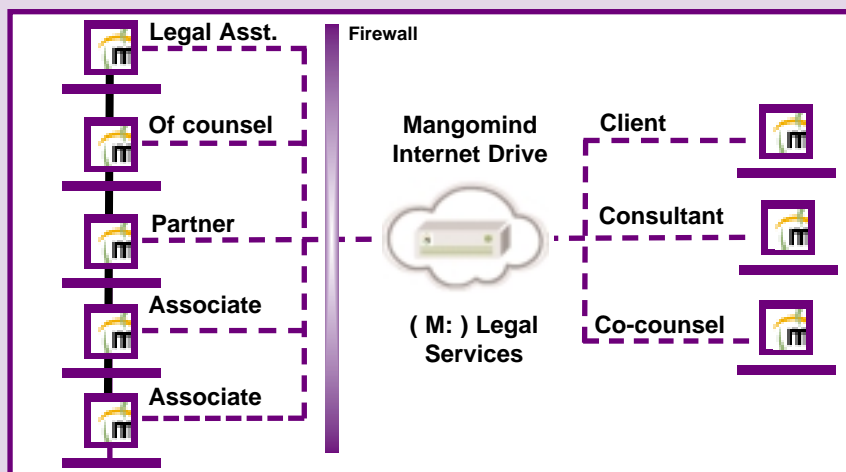

About Mangosoft

Mangosoft delivers Internet-enabling business software solutions that make external business communication and collaboration a powerful strategic advantage. Through its Mangomind Internet business file sharing service, Mangosoft allows business collaborators to leverage the communication power of the Internet to make smarter, faster business decisions.

Mangomind expands the boundaries of secure document sharing and collaboration between legal professionals, colleagues, and clients.

Mangomind allows secure collaboration between legal practice managers, clients and external consultants.

Mangomind provides a secure location where contracts, negotiations, closings, settlements and other legal documents can be easily saved, accessed and shared by all members on the client team, regardless of their geographic location. The service eliminates inefficient email distribution of confidential documents.
